# Material Safety Data Sheet

## 1. Company and Product Identification

**Product Name:** Acid Wash (JOLLY RANCHER)

**Product Type:** Quick Dry Spray / Pet Grooming Products

**Product Recommended Use:** Spritz lightly over wet coat to aid in reducing dry time.

**Manufacturer/ Supplier of Safety Data Sheet:**

**Manufacturer/ Supplier:** Shniff Pet Care  
7165 Sage Ave #B  
Yucca Valley CA 92284  
Webiste: [www.shniffpetcare.com](http://www.shniffpetcare.com)  
Email: [Shipping@shniffpetcare.com](mailto:Shipping@shniffpetcare.com)

## 2. Physical and Chemical Properties

**Appearance:** Liquid, Clear/ milky

**Scent:** Sweet and sour melon candies.

**pH:** 3-4

**FLASH POINT:** Not Determined

**TEMPERATURE:** Not Determined

**BOILING POINT/RANGE:** Not Determined

**MELTING POINT:** Not Determined

**VISCOSITY:** Liquid

**VAPOUR PRESSURE:** Not Determined

**VAPOUR DENSITY:** Not Determined

**SOLUBILITY:** Water

### 3. Ingredients

#### **Purified Water**

**Description:** Dilutant (LIQUID, CLEAR, ODORLESS) HEATED TO 210°. Purified Water is used primarily as a solvent in formulations, helping to dissolve other ingredients and facilitating the blending of components.

#### **Aloe Vera**

**Description:** (GEL, CLEAR, ODORLESS) Film Forming Humectant (pulls water from the air and hydrates). Known for its moisturizing properties, Aloe Vera gel is derived from the inner part of Aloe leaves, offering soothing and healing benefits to the skin and coat, enhancing moisture retention.

#### **Citric Acid**

**Description:** (FINE POWDER, WHITE, ODORLESS) Mild Acid, derived from citrus fruits such as lemons. Acts as a pH adjuster within formulations, helping to balance acidity to maintain product stability and skin compatibility. Offers preserving qualities and can help close the cuticles on the hair shaft to lock in hydration and shine.

#### **Polysorbate-20**

**Description:** (LIQUID, VISCOUS, ORANGE BROWN, ODORLESS) Used as an emulsifier, allowing water and oil components to mix uniformly. Acts as a nonionic surfactant, stabilizer, and solubilizer in cosmetic formulations, enhancing the texture and consistency of the product.

#### **Dehydroacetic Acid**

**Description:** (LIQUID, COLORLESS, ODORLESS) A synthetic preservative known for its potent antifungal and antibacterial properties. It's utilized in many personal care and skin care products to prevent microbial growth, ensuring product safety and longevity. Considered a low hazard for human health and the environment when used in appropriate concentrations.

#### **Benzyl Alcohol**

**Description:** (LIQUID, CLEAR, SLIGHT ALMOND SCENT) Acts as a preservative with potent antifungal and antibacterial properties. Benzyl Alcohol is used in various personal care and skin care products to enhance product safety by preventing microbial contamination. It is effective in low concentrations and contributes a mild, pleasant scent to the formulation.

**Fragrance: Sweet and Sour Melon Candy-** The identity of the specific components of this mixture is proprietary information and is regarded to be a trade secret, in accordance with Paragraph 1910.1200 of Title 29 of the Code of Federal Regulations. Please refer to [Bookmark1](#) PG 8 for allergen listings.

#### 4. Manufacturer Guidelines and Information

This is a personal care or cosmetic product that is safe for consumers and other users under intended and reasonably foreseeable use. Given the generally low toxicity of the ingredients, some of the guidelines below like "May be fatal if swallowed and enters airways" under "Aspiration Hazard" are generally not considered necessary warnings.

When using products repeatedly throughout the day, exposure may cause irritation to skin, eyes etc. Ensure to patch test for allergies. It is advised to provide employees with gloves and other protective equipment like masks and eye protection, to prevent irritation and adverse side effects. P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. P103 Keep out of reach of children. P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P210 Keep away from heat/sparks/open flames/hot surfaces — No smoking. P221 Take any precaution to avoid mixing with combustibles. P235 Keep cool. P260 Do not breathe dust/fume/gas/mist/vapors/spray. P261 Avoid breathing dust/fume/gas/mist/vapors/spray. . P270 Do not eat, drink or smoke when using this product. P273 Avoid release to the environment.. P311 Call a POISON CENTER or doctor/physician. P312 Call a POISON CENTER or doctor/physician if you feel unwell. P313 Get medical advice/attention. P330 Rinse mouth. P338 Remove contact lenses, if present and easy to do. Continue rinsing.

#### 5. First Aid Measures

**EYE:** Direct eye contact may cause mild, transient irritation. Some redness and/or stinging may occur.

**SKIN:** Not expected to be irritating, sensitizing, photo allergenic or phototoxic when used as intended. If irritation occurs following intended use or prolonged contact it is expected to be mild and transient.

**INHALATION:** Not expected to be irritating to the respiratory system. Not volatile therefore limited inhalation exposure anticipated.

**INGESTION:** Product used as intended is not expected to cause gastrointestinal irritation. Accidental ingestion of undiluted product may cause mild gastrointestinal irritation with nausea, vomiting and diarrhea.

#### 6. Fire Measures

**SUITABLE EXTINGUISHING MEDIA:** Carbon Dioxide, Dry Chemical, Foam, or other NON-Aqueous material.

**UNSUITABLE EXTINGUISHING MEDIA:** Do not use the direct water jet on burning material.

**SPECIAL HAZARDS ARISING FROM THE SUBSTANCE /MIXTURE:** Bottles should be rinsed with water and disposed of properly.

**DURING FIRE FIGHTING:** Water may be ineffective.

**SPECIAL PROTECTIVE EQUIPMENT AND PRECAUTION FOR FIRE FIGHTERS:** Treat as a chemical fire. Self-contained breathing apparatus and protective clothing should be worn when fighting fires involving chemicals.

**ADVICE FOR FIRE FIGHTERS:** Further information: Standard Procedure for chemical fires

## 7. Handling and Storage

**PRECAUTIONS FOR SAFE HANDLING:** Apply good manufacturing and industrial hygiene practices.

**HANDLING AND STORAGE:** Store in a cool, dry place out of direct sun.

Respiratory protection is not generally required, if desired use NIOSH approved organic vapor respirator. Use chemical resistant gloves as needed to avoid prolonged or repeated contact if desired. Product is safe for prolonged contact and will not cause dryness or irritation unless there is an allergy. Store in a cool, dry, well ventilated area away from all sources of heat or flame. Direct Sun will cause product to degrade. Do not store in clear bottle.

**SPILLS:** Absorb liquid and scrub the area with detergent. Dilute with water.

## 8. Exposure Control/ Personal Protection

**PERSONAL PROTECTIVE EQUIPMENT RESPIRATORY PROTECTION:** If desired wear a NIOSH approved respirator. Avoid excessive inhalation of concentrated vapors. Apply local ventilation where appropriate.

**EYE PROTECTION:** Use tightly sealed splash goggles, face shield, or safety glasses with brow guards and side shields as may be appropriate. This is not typically required

**SKIN PROTECTION:** Wear gloves as needed to avoid prolonged or repeated contact.

**WORK/HYGIENIC PRACTICES:** Good personal hygiene practices should be used. Wash hands after any contact, before breaks and meals, and at the end of the work period.

**OTHER USE PRECAUTIONS:** None generally required.

## 9. Stability and Reactivity

**CHEMICAL STABILITY:** Product is stable under normal storage and use.

**HAZARDOUS REACTIONS:** None Known.

**CONDITIONS TO AVOID:** Excessive heat, Direct Sun, Sparks or Open Flames

**MATERIALS TO AVOID:** Strong oxidizing agents or contamination with strong acids or alkalis.

**HAZARDOUS DECOMPOSITION PRODUCTS:** None Known.

**REACTIVITY:** None.

## 10. Toxicological Information

**ACUTE TOXICITY-ORAL:** (LD50: 2118.64) Product used as intended is not expected to cause gastrointestinal irritation. Accidental ingestion of undiluted product may cause mild gastrointestinal irritation with nausea, vomiting and diarrhea.

**ACUTE TOXICITY- DERMAL:** None

**ACUTE TOXICITY- INHALATION:** May be harmful if inhaled. \*Inhaled in this case means breathed in, not smelled.

**ACUTE EFFECTS:**

**EYE CONTACT:** May cause eye irritation.

**SKIN IRRITATION:** May cause skin irritation. (allergy)

**SKIN SENSITIZATION:** May cause an allergic skin reaction.

**RESPIRATORY SENSITIZATION:** Not Classified-The classification criteria are not met.

**TARGET ORGAN:** Single exposure: Not classified.

**GERM CELL MUTAGENICITY:** Not classified.

**REPRODUCTIVE TOXICITY:** Not classified.

**ASPIRATION HAZARD:** May be fatal if swallowed and enters airways (drowning)

In case of reaction or incident:

**Eyes:** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Ensure adequate flushing by separating the eyelids with fingers. If irritation persists or any visual impairment occurs, seek medical attention immediately.

**Skin:** Remove contaminated clothing and shoes immediately. Wash affected area with soap and plenty of water until no evidence of the chemical remains (at least 15-20 minutes). Seek medical attention if irritation, redness, or a burning sensation develops and persists.

**Ingestion:** If the product is swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Rinse mouth thoroughly with water. Give small amounts of water to drink if the person or animal is conscious and alert. Never give anything by mouth to an unconscious person or animal. Seek medical attention immediately, providing the product container or label.

**Inhalation:** Move the exposed person to fresh air immediately. Keep the individual at rest in a position comfortable for breathing. If breathing is difficult, administer oxygen if available. If the person is not breathing, provide artificial respiration. Seek medical attention as soon as possible.

**Notes to Physicians or First Aid Providers:** Treatment should be directed at the control of symptoms and the clinical condition. There is no specific antidote. Supportive care should be provided. In cases of respiratory distress, secure airway and ensure oxygenation and ventilation. Monitor and treat, as appropriate, for symptoms of overexposure such as irritation of eyes, skin, and respiratory tract.

Ensure that all personnel who might handle the product are trained in these procedures and that first aid supplies and emergency contacts are readily accessible in the work area. Regularly review and update these instructions as needed to ensure they comply with current health and safety guidelines.

## 11. Ecological Information

**ACUTE AQUATIC TOXICITY:** Not generally toxic to aquatic life

**PERSISTENCE AND DEGRADABILITY:** No data Available

**BIO-ACCUMULATIVE POTENTIAL:** No data Available

**MOBILITY IN SOIL:** No data Available

**OTHER ADVERSE EFFECTS:** No data Available

**ECOTOXICOLOGICAL OTHER INFORMATION:** No data Available

The product ingredients are expected to be safe for the environment at concentrations predicted under normal use and accidental spill scenarios. Packaging components are compatible with the conventional solid waste management practices. Additional information is available from the supplier on request.

## 12. Disposal Considerations

Dispose of in accordance with all local and national regulations. Send to a licensed waste management company. Do not contaminate ponds, waterways or ditches with chemicals or used containers.

Products covered by this MSDS, in their original form, when disposed of as waste, are considered non-hazardous waste. Disposal should be in accordance with local, state and federal regulations. While the finished product(s) is not considered hazardous as defined, this MSDS contains valuable information critical to the safe handling and proper use of the product. US Federal The product described in this Material Safety Data Sheet is regulated under the Federal Food, Drug, and Cosmetics Act and is safe to use as per directions on container, box or accompanying literature (where applicable).

## 13. Transport Information

Regulator Class Pack Group Sub Risk UN-nr U.S. DOT (Non-Bulk) **Not Regulated-Not Dangerous Goods**

## 14. Regulatory Information

**US FEDERAL REGULATIONS TSCA (USA TOXIC SUBSTANCE CONTROL ACT):**

All ingredients in this mixture are listed on the TSCA inventory.

**SARA TITLE III (SUPERFUND AMMENDMENTS AND REAUTHORIZATION ACT):**

**311 / 312 HAZARD CATEGORIES**

**FIRE:** NO

**REACTIVITY** No

**SUDDEN RELEASE OF PRESSURE:** No

**IMMEDIATE (ACUTE):** Yes

**DELAYED (CHRONIC):** No

**SARA SECTION 313:** *This mixture contains the following toxic chemical (s) subject to the reporting requirements of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.* **NONE LISTED**

**CALIFORNIA PROPOSITION 65:** This mixture contains the following chemical (s) subject to the reporting requirements of the Safe Drinking Water and Toxic Enforcement Act of 1986. **NONE LISTED**

#### 15. Other Information

DISCLAIMER: The information in this MSDS was obtained from current and reliable sources. However, the data is provided without any warranty, expressed or implied, regarding its correctness and accuracy. Since the conditions for use, handling, storage and disposal of this product are beyond SHNIFF PET CARE'S control, it is the user's responsibility both to determine safe conditions for use of this product and to assume liability for loss, injury, damage or expense arising out of the product's improper use. No warranty expressed or implied, regarding the product described herein shall be created by or inferred from any statement or omission in this MSDS. Various government agencies (e.g. DOT, EPA, FDA) may have specific regulations concerning the transportation, handling, storage, use or disposal of this product, which may not be reflected in this MSDS. The user should review these regulations to ensure full compliance.

## Allergen Listing

We hereby confirm that the following item contains the components listed below. Stated are the total levels added plus levels from natural ingredients. There are two main types of ingredients on the List. Fragrance ingredients are substances used for odor or malodor coverage. Functional ingredients are substances that are not used to provide odor or malodor coverage, but which are essential for the functionality or durability of a fragrance compound – such as an antioxidant, preservative, diluent, solvent or color.

| INCI Ingredient Name        | RIFM or Common Name                                                        | CAS      | Concentration (%) |

We see fragrance as a safe and essential part of life: it has the power to trigger a range of positive emotions and enhance lives. We have chosen suppliers that are IFRA certified members.

To help you and your clients to have trust in fragranced products, and to respect our shared environment, the fragrance industry has developed a system to manage the safe use of fragrance: the IFRA Standards.

The system is **demanding**, aiming to offer a great degree of protection to much of the population. It is a **comprehensive** system, looking at various endpoints and different types of consumer exposure; it is **responsive** – reacting fast to new scientific data; and it is **global**, ensuring that people worldwide can have the same level of confidence.

We want everyone to continue to use and enjoy fragranced products safely – experiencing the **pleasure that comes from a perfumer's creativity** and the **confidence that comes from the IFRA Standards**.
